"THE BEST NEWS AND ADVERTISING MEDIUM IN THE CAMPBELL COMMUNITY"

VOLUME 30, NUMBER 42

CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA

WEDNESDAY, JULY 12, 1933

Current Comment

If those battered and broken individualists who scoff at cooperatives could view the current statement of the directors of the Almond Growers exchange, and had the fortitude to hang on until their own branch of agriculture had builded an organization of similar strength, he would certainly be much better off in the long run.

The almond growers may have had difficulty in signing up their original membership. Now, however, they are not obliged to put on an annual campaign in order to get control of the market. The prune pool, on the other hand, must needs put on an intensive campaign in order to beg, borrow or steal sufficient tonnage to make a success of its marketing plan. And all because so many orchardists cannot see beyond their own noses.

Besides announcing a \$60-a-ton advance to those who wish it, directors of the cooperative state, in general: "The financial condition of your organization is splendid... well pleased with sales progress... expenses are being held to a minimum." And that's the way the report of the prune pool will read if enough farmers will string along until the pool has reached the point of stability now enjoyed by the almond growers of the state.

A federal economy program that deprives a huge, nearly 100 per cent agricultural area of its weather bureau is indeed a false one. Valley ranchers have come to depend upon the United States Weather bureau in San Jose for information at all times, but more particularly during the vital periods of frost during blossom time, and early rains at the end of the drying season. In our opinion a weather bureau if fully as important as a new post office, and much less expensive.

A condition which has recently been noticed and publicized is that of the "lazy motorist," and the hazard he presents to the traffic world. He is the one who is lax about giving hand signals. Every driver should strive to correct this increasingly bad habit. No doubt the presence of mechanical signals and other safety features has led to this type of carelessness on the part of the motorist.

The spotlight, for instance, is used in lieu of the hand signal denoting this maneuver. Moreover, in making a turn, the motorist glances in his mirror. If no overtaking car is visible, he simply does not bother to signal his intention to change his course. And as the average mirror does not fully cover the rear, this failure frequently is responsible for accidents.

Still another manifestation of the tendency to spare energy in respect to signals is found in the failure to use the horn. At night, especially many motorists count upon their headlights to serve as a warning of their approach and intention to pass another vehicle. In daylight they assume the driver of the car ahead has detected their presence in his mirror.

There has been no change in the traffic laws with respect to the giving of hand signals. Mechanical devices are a supplement to the re-

(Continued on Page 3)

Mr. and Mrs. Curry Hosts to Kiwanians At Lunch Tuesday

By Heck

One of the most enjoyable luncheons of the local Kiwanis club was the feast held at the B. O. Curry home on Parr avenue yesterday when the members and visitors were guests of Mr. and Mrs. Curry.

The menu consisted of cantaloupe fruit cocktail, crab salad, fried chicken, string beans, new potatoes, chicken gravy, spiced cherries, pineapple ice, cake and coffee, with fancy Bing cherries from the Dodge ranch as a constant temptation.

The program began with a series of toast songs to "Brother Ben."

Following the dinner, Rev. W. E. Eckles, a former fellow townsman, spoke on, "Mr. Curry, the Man," and told of the fine qualities of our co-builder that have made him such a stable and dependable man.

T. A. Cutting sang a saga of "Ben of Trondjhem" depicting in blank verse the sturdy ancestry that helped to make him such a sterling character.

Russell Kennedy told us of "Ben, the Realty Competitor," and if one can believe what one realtor says of another, Ben is a sure square shooter.

Rev. J. H. Bennett told of the fine citizenship exemplified by our genial host and hostess.

Nic Hedegard, who thanks Ben for his being a Campbellite, spoke of Mr. Curry's activities in civic affairs, stressing his beautification plans for town and country.

Mark Purmort, who has had the pleasure of being a close neighbor of the Curry family for 20 years, let the boys in on a few of the more intimate fine qualities of this hospitable household as "just good neighbors."

George Burrow, another good neighbor, acted as chairman.

Ben was completely surprised at the trend of the program and stated his sincere thanks to the bunch whose friendship he prizes so highly.

Tuesday evening next will be ladies' night. Bring your gal and enjoy the fun.

CAMPBELL POOL HALL OPENED BY JULIUS BACHMAN

The Campbell billiard hall is again open for business, having experienced a revival at the hands of Julius Bachman, popular local man, who recently held open house there for his friends and future patrons. Plenty of beer, sandwiches, and free games marked the opening.

In addition to the several varieties of pool games, Mr. Bachman will conduct a card room in which devotees of Rummy, Pitch and Pinochle may hold forth.

The actual operation of the enterprise will be shared by Mr. Bachman's brother-in-law, Earl Shaves.

Texas Guests

An informal family reunion finds at the F. C. Smith home on Hamilton avenue the following guests: Mr. and Mrs. W. P. Needham and daughter Wanda of Dallas, Tex., Miss Vera Jenkins of Decatur, Tex., and Mrs. Leonard A. Smith and Joyce Smith of Abilene, Tex.

RODEO STAR

Miss Margaret McCulley of Watsonville will be among the pretty equestriennes at the Salinas rodeo, July 21 to 23. She has won many prizes in roundup competition.

Almond Growers Get \$60 Advance On Current Crop

Advances to meet harvest expenses to a maximum of 60 dollars a ton will be made to the members of the California Almond Growers exchange according to a statement mailed to the growers today.

In commenting on this action of the directors of the Exchange, T. C. Tucker, manager of the cooperative said:

"This advance to meet the harvesting expenses of the members, can be made because of the sound and liquid position of their association."

"Despite the difficulties due to the depression the Exchange has actually improved its financial condition and has done this without seeking state or government aid."

According to the announcement made by the directors the advance will be in the nature of a short term accommodation to be deducted from advances made on delivery of the crops of the members who wish to take advantage of it.

Applicants for the advances will receive consideration in the order of their applications.

Dr. C. N. Thomas To Speak on Mexico Here Sunday Night

This Sunday evening at 7:45 Campbell folks will have an opportunity to hear Dr. C. N. Thomas, international traveler and lecturer, when he speaks at the Congregational church.

Dr. Thomas' subject will be "Mexico," a topic he is particularly able to deal with in a comprehensive and interesting manner, having but recently completed a tour of that country. The lecture will be illustrated with pictures prepared personally by Dr. Thomas.

At the service last Sunday evening a packed house heard the "Jubilee Singers," a quintet of colored lads from the Prentiss (Mississippi) normal school.

At Tahoe

Dr. and Mrs. Weyland Morgan were visitors at Tahoe last week.

Relief Measures Discussed by Wm. Jacka, Grange Meet

At the regular meeting of the Orchard City grange last night at Odd Fellows hall local grangers heard William Jacka, member of the law firm of Rea, Free and Jacka, speak on the industrial and agricultural recovery plan now being carried out by President Roosevelt and congress.

Introduced by S. N. Hedegard, the speaker launched into a discussion of the many and various relief measures, proposed, and passed, by the current administration.

Quoting many figures, Mr. Jacka touched on the results of inflation and the accompanying rise of commodity prices, the bank situation, farm mortgages, and the possibility of going off the gold standard.

The speaker lauded congress and the timely work of the President, and stated that in his belief the corner around which prosperity has been lurking for the past several years, has at last been reached.

Following the talk grangers held their regular business meeting, at which matters of only minor importance were discussed.

NEW BOOKS AT LOCAL LIBRARY; NOMINAL RENTAL

Just before the Campbell Country Woman's club adjourned for the summer the ladies appropriated a sum of money with which to institute a "lending library" within the local library. The plan is to keep this fund constantly active in the purchase of new books, and it will be accomplished in this manner:

The new books will be charged for at the rate of ten cents a week, and when the total amount of the cost of the books has been regained they will be put upon the free shelves. The fund will then be re-invested in another group of books. Thus the rate with which new books are acquired by the library will depend somewhat on the reception given the plan by patrons of the library.

The first group of these books, now available at the library for the nominal sum of ten cents a week, include the following volumes:

"100 Million Guinea Pigs," Kallet & Schlink; "New Deal," Stuart Chase; "Life Begins at Forty," Walter Pitkin; "Time to Live—Adventures in the Use of Leisure," Hambidge; "Anne Vickers," Sinclair Lewis; "Sons," Pearl Buck; "Family Reunion," Janet Owen; "As the Earth Turns," Carroll; "Beyond the Blue Sierra," Honore Willsie; "Egyptian Cross Mystery," Ellery Queen; "Who Spoke Last," Williams; "Death Answers the Bell," Turner; "Jesse Rountree," Coolidge; "So Many Miles," "Flow-ering Wilderness," Galsworthy.

Hydes at Yellowstone

Word has been received from Mr. and Mrs. Ralph Hyde to the effect that they will arrive home in ten days or two weeks. They are now in Yellowstone National park. They will return by way of the Columbia River highway. A stop-over will be made in Dallas, Ore., to visit relatives.

Independent Free-Holder Candidates State Platform; Tax League Hat In Ring

At a special election Aug. 1 the voters of Santa Clara county will go to the polls to vote for 15 freeholders whose duty it will be to draft a charter which will, if accepted, mark the way for future county government.

Two groups seek the election of their candidates, the Independent Progressive Voters Economy league and the Citizen's League on Government and Taxation.

The first named group offers the following candidates, all leaders in county and community affairs:

Daniel R. Ackley, oil distributor, 134 Massel avenue, San Jose; R. V. Bressani, attorney, 1191 Emory street, San Jose; Florence M. Curry, accountant, 131 Hawthorne Way, San Jose; E. N. Curtiss, architect, 254 South 17th street, San Jose; V. M. Edes, orchardist, Morgan Hill; W. B. Ellington, Stanford University, 587 Alvarado Row, Stanford; Edward M. Fellows, attorney, 858 Schiele avenue, San Jose; S. N. Hedegard, orchardist, route 1, box 545, Campbell; J. Fred Holthouse, orchardist, Santa Clara; Robert A. Judson, Lather, 749 Willow street, San Jose; William D. Lote, structural engineer, 1040 Benton street, Santa Clara; Arthur G. Moore, Realtor, 915 Plaza Drive, San Jose; Antone V. Picchetti, orchardist, Cupertino; George A. Prindiville, financier, 1102 Lincoln avenue, San Jose; J. S. Williams, merchant, 875 Plaza Drive, San Jose.

The slogan of this representative and progressive group is "A Square Deal to All Taxpayers and Voters," and the candidates for the board of freeholders to draw a charter for the government of Santa Clara county declare, that if elected, they will

"1. Devote ourselves promptly and earnestly to the work of framing the best charter possible for our county and submit the same for approval by the citizens within 120 days, as required by law.

"2. Have in mind at all times the interest of the tax payer to the end that the charter will provide a county government as economical as possible without impairment of efficiency.

"3. Prepare a well balanced charter so that every branch of county government will receive proper consideration and protection.

"4. Study the charter of every county having a charter and all other information available and take advantage of the experience of other counties; so as to discard that which has proven to be unduly expensive or inefficient and use only that which has been proven to be economical and efficient.

"5. Listen to and duly consider the views of all citizens interested in charter government, but permit no individual or group to dictate or unduly influence our acting.

"6. Endeavor to frame a charter that is flexible enough to meet changing conditions and not make it impossible to 'carry on' in emergencies."

TAX LEAGUE CANDIDATES

The second group in the field, that of the Tax League, includes

(Continued on Page Two)

THE FARMERS CORNER

By Ralph H. Taylor

Virtually every branch of California agriculture, with its vast array of more than 180 commercial crops, will be affected directly or indirectly—and usually beneficially—by enactments of the 1933 state legislature, soon to be written into the statute books.

Already boasting the largest agricultural code of any state in the nation, due to the multiplicity of farming industries and the wide range of its markets, California agriculture comes under a host of new laws this year, drafted to meet emergency problems.

Farm cooperatives, which handle the bulk of the state's marketing are aided by several of the new measures.

Two bills, for instance—S. B. 282, by Senator Waggy and A. B. 1226, by Assemblyman Powers—relieve cooperatives and their members from unnecessary borrowing charges by amendments to the personal property brokers' law, commonly called the loan shark act. Under the terms of the new amendments, cooperatives and other organizations borrowing under federal supervision are exempted from provisions of the law, thereby reducing the cost of loans to such borrowers.

The Stow-Duval bill, another act of importance to the cooperatives marketing organizations, which are, in fact, cooperatives but which are not organized under the cooperative marketing laws, to come under such laws by resolution and proper amendments to their by-laws. This measure will avoid heavy expenses of reorganization heretofore necessary in such instances where cooperatives desired to secure the full benefit of such laws.

Of paramount importance among general farm bills, affecting the entire industry, the Badham act—A. B. 770—strike sat a practice which has resulted in serious injury to agriculture during periods of frenzied competition. The bill tightens up the laws regulating unfair competition by prohibiting below-profit-sellin gto freeze out competitors.

Also of general importance, A. B. 1143, by Assemblyman Ross, gives necessary protection to agricultural commissioners and other farm officials in the pursuit of their duties. This bill, meeting a condition which has endangered enforcement work in the past, provides that in the enforcement of laws which may later be declared unconstitutional no liability shall rest on officials charged with such enforcement. In effect, the new statute merely such officers from being civilly liable, when acting in the course of duty and within the provisions of such laws before they have been declared invalid.

Cattlemen, selling to local markets and seeking to reduce their overhead, will be aided materially under the terms of the Sharkey-Slater act—S. B. 195—which amends the meat inspection act to permit local disposal of meats by the producer. It makes life easier for the small producer by enabling him to sell meat to his local market without the burdensome costs of slaughterhouse killing and inspection.

Another measure of considerable importance to livestock men is the new Craig bill, giving the state department of public works authority to construct cattle trails, where practicable, paralleling state highways, as a protection to stock and motorists.

There are also several new acts closing loopholes in the various dairying laws. Two practically identical bills in this group are A. B.

ROADS TO HILLS DISCUSSED BY AUTO-BILE CLUB

Local vacationists will be interested to know something about the condition of roads leading to favorite loafing grounds. The following information came from the touring department of the National Automobile club.

ROAD TO JUNIPER LAKE

The road from Chester to Juniper lake in the Lassen Volcanic National park is now open and in good condition.

While this is dirt mountain road—narrow, winding and with a few short, steep pitches, any experienced mountain driver can negotiate it without difficulty.

Limits of rainbow, averaging from one to three pounds, are being taken daily. There are 40 other lakes in this area, all within walking distance of Juniper lake.

BIG OAK FLAT ROAD

The Big Oak Flat road leading to Yosemite valley is in splendid condition. Motorists driving to the valley are urged to either go in or return via this route, in order to view the many scenic attractions along the way.

It is perhaps a little easier to return from Yosemite via this road, due to the fact that most of its grades are down. There are several long grades leading from the floor of the valley to Crane Flat checking station, but after that, the majority of the trip is down grade.

One of the most spectacular scenic views of the entire valley is to be enjoyed from this road, and that is from Carl inn to the O'Shaughnessy dam, a distance of 16 miles. The first six miles are oiled dirt, passing through dense forests of sugar pine trees. A splendid paved highway then winds to the dam. Two large falls cascading into the reservoir, combined with the thousands of gallons of water pouring through the spillways of the dam,

1977 and A. B. 1982, both by Assemblyman Scudder. They prohibit the sale of milk or cream made from skim or whole milk blended with butter. Another dairy act, also by Scudder, stops the practice of mixing vegetable oils with milk except for poultry feed.

S. B. 81, by Senator Mixer, combines the produce dealers and deciduous fruit dealers acts and broadens, materially, the definition of a dealer. It likewise broadens the powers of investigation granted the department of agriculture.

Strengthening egg standards, A. B. 1610, by Assemblyman Scudder, repeals present cold storage marketing requirements, inasmuch as the egg standardization act sets up quality standards which gives far more adequate protection to the consumer.

Taken as a whole, the new farm laws afford a square deal and added protection to the two groups most vitally interested—producers and consumers.

FREEHOLDER CANDIDATES' HATS IN RING

(Continued from Page One)

Mrs. Miriam H. Blanchard, Dr. Heverland R. Chesbro, Mrs. Jessie Cilker, Orville B. Couk, Robert B. Gray, Charles H. Johnson; Faber L. Johnston, Timothy J. Kirby, William D. Lotz, Walter C. Magneson, Kenneth R. McDougall, Harry G. Mitchell, Almon E. Roth, Orvis H. Speciale, Henry G. Stelling.

The platform of these candidates is based upon the planks of "economy, efficiency, progress, and a merit system for public officials and employees."

Week-end at Capitola

Mr. and Mrs. H. M. Shadle spent the week-end at Capitola.

are a most impressive sight.

There are two short stretches of construction on the Big Oak Flat road. The first is encountered two miles east of Carl inn, where the road is being scraped and improved; the second is near Buck Meadows, where the road is being resurfaced. These offer no inconvenience to traffic. The remainder of the road is splendid, oiled gravel highway.

PARADISE VALLEY ROAD

The highway into Paradise valley, Mount Rainier National park, Washington, is now open. Snowplows have just completed cutting through the drifts and banks of snow and the road is in good condition throughout. Paradise lodge is open, with excellent accommodations, both American and European plan.

The highway to the Nisqually entrance to the park is paved. Within the park, permanent surfaced road, all in excellent shape, are to be encountered. Banks of snow border the highway into Paradise from Narada falls, offering one of the most unique scenic trips to be found in the nation at this time of the year.

BRIDGES OUT

It is not advisable to attempt to drive from Lake Tahoe to Rubicon Springs at this time. There are several bridges out on this road and the streams are still too high to attempt to ford them.

SERVICE and DEPENDABILITY

"WHAT'S WRONG WITH THE LIGHT IN THIS HOUSE?"

TRYING TO MAKE A 25 WATT LAMP ACT LIKE TWO SIXTIES!

LESS THAN ONE-HALF THE COST OF A PACKAGE OF CIGARETTES A DAY BRINGS GOOD LIGHTING TO THE AVERAGE HOME.

HE WORKS in a well lighted office. Lighting fixtures are properly placed. Lamps of the proper wattage are used. Burned-out lamps are promptly replaced.

This is not the case in his home.

No wonder he gets drowsy trying to read and at an early hour is tired and ready for bed. There is not enough light or the wrong kind of light by which to read.

Empty sockets, burned-out lamps, trying to make a twenty-five watt lamp act like two sixties is bad for the disposition, the eyes, for health.

Glare is also bad for the eyes. Adequate lighting fixtures, properly shaded, give diffused light. It is restful light. It does not reflect from white paper or bright surfaces and protects the eyes.

Good light is one of the few things we live with so much that is neither expensive or hard to obtain. Year after year the cost of electric light has been reduced. How many other daily necessities cost you less than before the war? The proper use of light is so inexpensive today that every home should have all the light needed for comfort, health and safety.

EARLY SERVICES AT LOCAL CHURCH TO BE CONTINUED

The early Sunday morning service, instituted the first of last month at the local Congregational church, will be continued throughout July, and perhaps longer, according to an announcement by the Rev. J. H. Bennett, pastor of the church.

"People appreciate our effort to

give them an opportunity for early worship," said the Rev. Bennett, "and we propose to keep it up for another month at least—maybe longer."

The early service starts at 10 a. m. and is over at 11 o'clock. Evening services remain the same.

Current Comment

(Continued from Page 1)

quired appropriate gestures of the driver and not a substitute for them. Motorists appear to be confused on this matter with a resultant lapse that makes them lazy drivers from an official point of view.

One look at the pace of modern traffic should be enough to indicate the unwisdom of laziness.

In a certain New England state chronic accident cases were hailed before the state motor vehicle board with a view to finding out what caused any individual driver to have two or more accidents, hoping to correct the fault. Nearly every second or third offender revealed to sympathetic questioning that

they had a pet fault—usually one of the faults of the lazy driver: Failure to blow horn upon passing another car, both in the day time and at night, and failure to give proper hand signals are, according to the records of the aforementioned board, the causes of nearly all accidents, great or small. Let's watch those signals.

Here's Something to Think About:

The public buys more Goodyear Tires than any other kind—this is the eighteenth successive year! . . . The public wouldn't buy more Goodyear Tires if Goodyears did not offer greater value . . . But they *do* offer greater value, hence they enjoy greater sales . . . Are you wondering what tire to buy? Just ask yourself this simple question: "Why should I buy any tire but a Goodyear when a Goodyear costs no more?" . . . We think you'll decide it by coming right down to see us.

GOOD YEAR

See how Goodyear puts traction IN THE CENTER of the tread right where it contacts the road—big husky blocks of rubber—keen-edged, deep-slotted—to dig in, grip tight, hold-fast!

JUNE STATEMENT AM. TRUST SHOWS GOOD CONDITION

The June 30 statement of condition just released by the American Trust company reflects the usual strong liquid condition of the bank.

Cash, United States government bonds and other bonds totalled \$108,963,655 as against \$106,754,595 on Dec. 31. Loans declined \$6,210,602, and deposits approximately \$3,700,000 for the same period.

The current statement shows no bills payable or rediscounts, and deposits at \$197,204,476.

Reflecting improved conditions in the Bay Region, in which its branches are largely concentrated, the American Trust company showed, on June 30, an increase of 14 1-2 million dollars in deposits over March 31.

Visits In Santa Cruz

Harry White was in Santa Cruz Tuesday evening visiting Mr. and Mrs. Harry Voss and daughter, Nora Lee.

Attend Installation

A number of members of the Morning Light lodge visited the Los Gatos Odd Fellows when they held their installation ceremonies Tuesday night.

Back to Cap

Mrs. Herold Morton and sons Wilbur and Richard, who returned from a vacation at Capitola Sunday, went back this morning to stay for the rest of the week.

Can't Use His Telephone, but He Couldn't Do Business Without It

Mr. Clinton watching the sheet of newspaper which, thrust between gong and clapper, would flutter down to notify him when his telephone rang

When John Toohig, service engineer for the New England Telephone and Telegraph Company in Boston, called at the John F. Clinton cabinet-making shop during the course of his regular inspection visits to telephone subscribers, he found a unique situation—a business organization which relies on the telephone for many transactions and yet has no one able to make use of it satisfactorily. Mr. Clinton, the proprietor, and all his regular employees are deaf mutes.

Watched for Paper to Fall

Mr. Clinton's shop specializes in the repairing of fine woodwork, restoring of antique furniture, and similar high grade cabinet work. Customers are people of means. Naturally, they expect to be able to call up in connection with their orders. Strange were the expedients Mr. Clinton resorted to, to handle their telephone inquiries.

Although Mr. Clinton, a man of boundless energy and perseverance, has learned to read lips, and to talk to a limited extent, he cannot hear,

not even a telephone gong mounted high on the wall. To know when the telephone rang, he thrust a sheet of newspaper between the hammer and the gong. When the gong rang, the newspaper fluttered to the floor, attracting his attention, and he took the telephone from the hook. That was just the beginning of his difficulties. He then had to find someone to talk over the telephone for him.

Telephone Man Solves Problem

Sometimes there was a customer in the shop, who would do this for him; occasionally an extra workman was at hand who could speak. Generally, however, he had to run downstairs to another store and get someone there to come up and do the talking. The situation was very haphazard and unsatisfactory. Moreover, Mr. Clinton found that he was losing business because his customers could not communicate readily with him.

All that is changed now, thanks to the suggestions made by the telephone company's Mr. Toohig.

Mr. Toohig saw, of course, that the cabinet shop needed a clerk to handle its telephone business. More than that, though, he saw how such a clerk could earn her own way.

Girl's Calls Bring Business

The telephone company private branch exchange bureau found, from among its list of available operators, a young woman who was glad to take the position of clerk in the cabinet shop. A telephone company sales instructor trained her in the soliciting of business by telephone. Now it is no longer necessary for anyone to watch for a fluttering newspaper, to seek hurriedly for some outsider to answer a telephone call.

Mr. Clinton and his workers carry on their cabinet-making. The clerk answers the telephone. But she does more than that. By telephone she solicits more business for the shop. Of the first nine such calls she made, five resulted in orders.

The telephone man's routine call started a train of action which brought benefits to the shop's customers, who get better service, to the proprietor, who gives better service and gets more business, and to the clerk, who has a job.

Installation Rites Observed by Rebekah Lodge Next Tuesday

The Ada Rebekah lodge will hold their regular semi-annual installation of the new officers for the ensuing term at their next meeting on Tuesday evening, July 18 at the I. O. O. F. hall.

On the committee for the arrangements of the affair are Mrs. Miriam Dunlap, Mrs. Hazel McQueen, Mrs. Wilmay Lea and Mr. and Mrs. William Ohlen.

In the City

Mrs. Harry White was in San Francisco on business Monday.

At Ben Lomond

Mrs. W. N. Lloyd and two little daughters are enjoying a vacation at the J. C. Ainsley cottage at Ben Lomond. Mr. Lloyd is commuting.

Visits Mother

Mr. and Mrs. Phil Fletcher were visiting the former's mother, Mrs. Leonard Fletcher, at her home in Santa Cruz over the week-end.

ASK YOUR GROCER FOR TASTE GOOD BAKERY BREAD

INDIANS WILL MEET COWBOYS AT BIG RODEO

Salinas, July 12—Cowboys will not have everything their own way at the Salinas rodeo this year. For the Indians will be there too, and they promise real competition.

Led by Chief Little Horse, a band of Sioux tribesmen have announced their intention of taking part in the roundup July 21 to 23. They will establish a typical Indian village on the grounds at Rodeo park.

In addition to daily participation in the rodeo events, the Indian braves will give exhibitions of tribal dances and rituals, according to Fred S. McCargar, secretary of the California Rodeo association.

The roundup will also feature a horse fair, with some of the finest stock from western farms and ranges.

Joins Marines

Melvil Voge is reported to have successfully passed the examination of the United States Marine corps which he took in San Diego the last of June.

Here from Fresno

Mrs. Calvin Antrim and children arrived from Fresno Saturday night to spend the summer with Miss Mary Rodeck.

BOB FEATHERS LOSES CAR. JOKE IS ON THE THIEF

A Ford roadster, belonging to Bob Feathers, was stolen last Wednesday evening from the parking place behind the California theater in San Jose, while Feathers was attending the show. He immediately reported the theft to the sheriff and recovery was made the next day. The car was found near Milpitas, with everything of value stripped from it. The loss was not covered by insurance. Officers are investigating.

Barbecue

Mr. and Mrs. Harry C. Smith, Mr. and Mrs. James Knappen, and C. T. Fawcett motored Sunday to Big Basin where they enjoyed a steak barbecue. They returned via the Big Trees and Santa Cruz highway.
